

RAPID ELBOW PAIN RELIEF, LONG-TERM EFFECTS.

YOUR BAUERFEIND TRAIN SUPPORT.

EpiTrain® PAIN-RELIEVING ELBOW SUPPORT

- + Alleviates pain and relieves the irritated muscle-tendon junction
- + Improves elbow mobility
- + Accelerates the reduction of inflammation and swelling
- + With breathable knitted fabric and a particularly soft bending zone

"Pressure point massage and compression on the elbow, for example exerted by a support, alleviate pain and allow earlier mobilization."

Christian Teusch,
Specialist in Orthopedics and Trauma Surgery

"Targeted use of the EpiTrain reduces pain in cases of tendon and periosteal irritation."

Joshua Schirm, Physioboxx,
Lauingen an der Donau, (Sports) Physical Therapist

- 01 Three-dimensional Train active knit** ensures the perfect fit
- 02 Reduced pressure around the edges** prevents constriction
- 03 High degree of elasticity** ensures easy fitting and removal as well as exceptional wearing comfort
- 04 Viscoelastic Epicon+ Pads with epicondyle cut-outs** provide the elbow with support and relief, accelerate the absorption of edemas and effusions and ensure the secure positioning of the support
- 05 Firmer material component with frictional nubs** alleviates pain and promotes the elbow's healing process
- 06 Inner elbow area with a soft and breathable zone** improves wearing comfort

FIND A MEDICAL RETAILER NEAR YOU

Our retailer search feature will help you quickly find a medical retailer, for example a medical supply store, where you can get our EpiTrain® elbow support: bauerfeind.de/haendlersuche. Our Quality Partners will provide expert advice and carry out professional measurements to make sure your medical product will fit perfectly. This is essential to ensure its full effectiveness.
