

RAPID BACK PAIN RELIEF, LONG-TERM EFFECTS.

YOUR BAUERFEIND TRAIN SUPPORT.

LumboTrain®

RELIEF, STABILIZATION AND ACTIVATION
OF THE LUMBAR SPINE

- + Activates the back muscles and promotes an upright posture.
- + Pleasant massage, thanks to heavily contoured pad
- + High degree of wearing comfort, thanks to breathability
- + Optional fitted cut ensures the perfect fit for female body shapes.

“The back is highly complex – its structures require perfect fine-tuning. LumboTrain ensures the proper interaction between the individual muscle groups. It provides stability, balance and pain relief.”

Susanne Gramatté,
Specialist in Orthopedics and Pain Therapy

FIND A MEDICAL RETAILER NEAR YOU

Our retailer search feature will help you quickly find a medical retailer, for example a medical supply store, where you can get our LumboTrain® back support: bauerfeind.de/haendlersuche. Our Quality Partners will provide expert advice and carry out professional measurements to make sure your medical product will fit perfectly. This is essential to ensure its full effectiveness.

DOWLOAD THE BAUERFEIND TREATMENT APP

Use our Treatment App to strengthen your back and actively combat pain. Download the app free of charge at bauerfeind.de/app.

Your personalized
training program
specifically
adapted to your
indication and your
LumboTrain.

- 01 Reduced pressure around the edges**
prevents constriction
- 02 Feathered edge on the abdominal fastening** ensures great wearing comfort when walking, standing and sitting down
- 03 Standard version and fitted option** to ensure the perfect fit for different body shapes
- 04 Practical hand straps and good elasticity** make the support easy to put on with minimal effort and ensure it fits the body's contours snugly
- 05 Special high-low knitted fabric** with breathable comfort zones increases skin contact for secure positioning and extensive stimulation of the body's own stabilization processes
- 06 Stabilization and relief of the lumbar region** thanks to the straightening effect of circular compression and activation of the supporting torso muscles
- 07 Pain-relieving intermittent compression massage** during movement thanks to stimulating knitted fabric and anatomically contoured lumbar pad featuring raised frictional nubs
